TECHNICAL DATA SHEET

Product Code – AS-048

LANE MARKING MACHINE

Description: Lane/ Floor Marking Machine comes with a hardened silicone rubber roller at the bottom to ensure higher durability of the tape on the floor. It is used to help apply the lane marking tape on the floor. The machine gives it the bubble free surface and the hardened silicone rubber roller at the bottom helps it in applying is a pressure to ensure the higher durability of the tape on the floor.

Application : Lane/Floor Marking Machine is used to help apply the lane marking tape on the floor. The machine applies bubble free tape on the surface.

Application Technique: For best results, ensure the surface is clean, dry and dust free before application of the tape. Apply even and firm pressure for better adhesion results.
